TO WHOM IT MAY CONCERN:

I am the Wellness Supervisor for the Earl & Billye Bradley Wellness Center in Eastland, Texas. I have worked with Race Day Event Services for two years and I feel strongly about the services they offer.

Race Day offers top of the line services including: accurate chip timing system, PA system, free calendar listings, and online registration. They also offer many other services, at a cost, to help plan a race with ease: providing race bibs, directional signage, and stuffing race bags. Race Day provides a friendly and helpful staff that is very reliable, organized, and on time.

Below is a list of events that Race Day has chip timed:

May 2012 - Slackers 5K – 175 participants
May 2013 - Slackers 5K – 150 participants
June 2013 - Glow Run 5K – 267 participants

They have timed many events for other organizations in our community as well. I highly recommend Race Day Event Services when I receive calls or requests for a race event.

We have received numerous complements from participants about how well our races have been organized and the ease of signing up as a participant. It would not have been possible without RDES. We intend to continue our relationship with RDES as we plan for bigger and better events in the future.

Please feel free to call me directly if you would like additional information regarding the Earl & Billye Bradley Wellness Center's relationship with Race Day Event Services.

Sincerely,

Tessa K. Culverhouse

Wellness Supervisor
